

PARTNERS IN PROGRESS (PIP) 2010

ABSA's annual "Make a Difference Project" during which time houses are built for a selected community badly in need of housing, this year focused on Mogale City where the Kagiso community were the beneficiaries.

Desto, through Lionel Grewan and Freddie Orsmond, organised a meeting that included the SANDF, Services SETA, ABSA Centurion and Desto representatives to offer support for this worthwhile project.

In total 40 volunteers from the Army and Desto were offered to the project. The objective is to build 150 low cost houses within a week.

Desto plans to support this project next year as well.
